HBV Real-Time PCR, Quant

HBV IU/mL: <20 IU/mL

HBV DNA detected

log10 HBV IU/mL: Unable to calculate result since non-numeric result obtained for component test.

HBV Copies/mL: <116 Copies/mL

HBV DNA detected

log10 HBV Copies/mL: Unable to calculate result since non-numeric result obtained for component test.

Test Information:
The reportable range for this assay is 20 to 170,000,000 IU/mL (116 to 989,400,000 copies/mL).

LabCorp will report results in both IU/mL and copies/mL, same viral load result represented in two different ways.

Previous results were reported in copies/mL. To convert old results from copies/mL to IU/mL, divide the copies/mL result by 5.82, (The conversion factor is 5.82 copies = 1 IU).
