Lipoprotein Phenotyping

| Test                             | Current Result and Flag            | Previous Result and Date | Units | Reference Interval |
|----------------------------------|------------------------------------|--------------------------|-------|--------------------|
| Cholesterol, Total <sup>01</sup> | 172                                |                          | mg/dL | 100-199            |
| Triglycerides <sup>01</sup>      | 64                                 |                          | mg/dL | 0-149              |
| HDL Cholesterol <sup>01</sup>    | 60                                 |                          | mg/dL | >39                |
| VLDL Cholesterol Cal             | 12                                 |                          | mg/dL | 5-40               |
| LDL Chol Calc (NIH)              | 57                                 |                          | mg/dL | 0-99               |
| Lipoprotein Pheno. <sup>02</sup> | Classification      Normal Pattern |                          |       |                    |
|                                  | Appearance      Clear              |                          |       |                    |
|                                  | Chylomicrons      Absent           |                          |       |                    |
|                                  | Beta      Normal                   |                          |       |                    |
|                                  | Pre-Beta      Normal               |                          |       |                    |
|                                  | Alpha      Normal                  |                          |       |                    |

**Disclaimer**  
The Previous Result is listed for the most recent test performed by Labcorp in the past 5 years where there is sufficient patient demographic data to match the result to the patient. Results from certain tests are excluded from the Previous Result display.
