Mycoplasma pneu. IgG/IgM Abs

Test	Current Result and Flag	Previous Result and Date	Units	Reference Interval
M pneumoniae IgG Abs ⁰¹	<100		U/mL	0-99
		Negative:	<100	
		Indeterminate:	100 - 320	
		Positive:	>320	
	The reference interval established is intended as a baseline only. Values >100 may indicate a recent infection with Mycoplasma pneumoniae and need to be confirmed either by a positive IgM result and/or an additional specimen drawn 2-4 weeks later showing a significant increase in antibody levels.			
M pneumoniae IgM Abs ⁰¹	<770		U/mL	0-769
		Negative	<770	
	Clinically significant amount of M. pneumoniae antibody not detected.			
		Low Positive	770 - 950	
	M. pneumoniae specific IgM presumptively detected. It is recommended that another sample be collected 1-2 weeks later to assure reactivity.			
		Positive	>950	
	Highly significant amount of M. pneumoniae specific IgM antibody detected.			

Disclaimer

The Previous Result is listed for the most recent test performed by Labcorp in the past 3 years where there is sufficient patient demographic data to match the result to the patient
