Ordered Items: Potassium, RBC; Venipuncture

Date Collected: Date Received: Date Reported: Fasting:

Potassium, RBC

Test	Current Result and Flag	Previous Result and Date	Units	Reference Interva
Potassium 01	87		mEq/L	BIOLOGIA, MANAGEMENTA MANAGEME
	Reporting Limit: 2.8 mEq/L NMS Labs derived data for 2.5th - 97.5th percentile			
	range is 82 - 100 mEq/L (n=5	41).		
	The RBC sample used for anal	ysis was measured by weight		
	and multiplied by the density of human RBC (1.10 g/mL)			
	to obtain mEq/L units.			
	Analysis by Inductively Coup	led Plasma/Optical		
	Emission Spectrometry (ICP/0	ES)		
	Specimens for elemental test	ing should be collected in		
	certified metal-free contain	ers. Elevated results for		
	elemental testing may be cau	sed by environmental		
	contamination at the time of	specimen collection and		
	should be interpreted accord	ingly. It is recommended		
	that unexpected elevated res	ults be verified by		
	testing another specimen.			
	This test was developed and	its performance		
	characteristics determined b	y NMS Labs. It has not		
	been cleared or approved by	the US Food and Drug		
	Administration.			

Disclaimer

The Previous Result is listed for the most recent test performed by Labcorp in the past 3 years where there is sufficient patient demographic data to match the result to the patient.
